durability

## VR Series

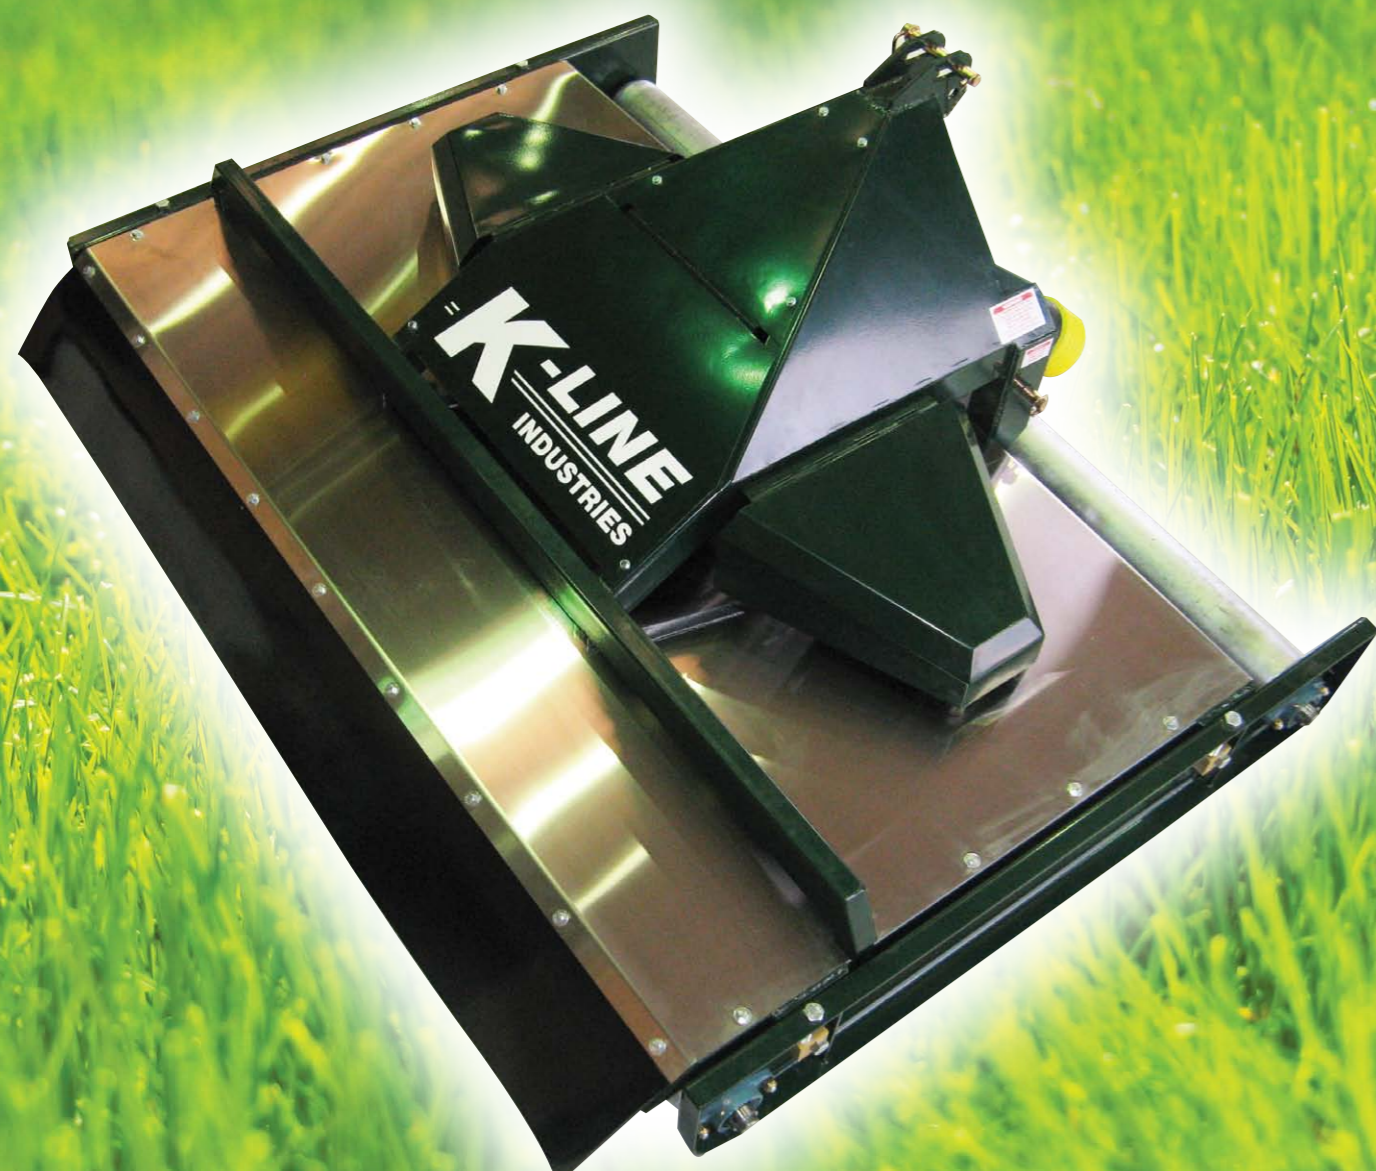

# MOWER

The VR Series Mower is a precision-cut finishing mower built by K-line Industries with a *high tip speed*. These revolutionary mowers are enabling large areas to be mown with the precision and quality of cut previously achieved by smaller and slower machinery.

The quality, safety and strength of the VR Series Mowers set a new benchmark for the landscape industry.

- **Fast operation with high tip speed**
- **Simple height adjustment**
- **Unique quad-blade spinners for an excellent finish**
- **Easy to service and maintain**
- **Stainless Steel decks**
