

# K55 COULTERS

## *Unique advantages of K55 Series Coulters*

- Models to suit most conventional seed drills
- Single and double (coulters)
- Heavy construction
- Universal easy fit to suit air-seeder bars & disc seeders

**Retain trash residue and benefit from increased moisture retention and less soil erosion. Retained trash also maximises nitrogen for the next year's crop.**

## ***K55 SERIES COULTERS***

are built by K-Line Industries in heavy duty single and double coulters assemblies. They are supplied with plain, fluted or wavy discs. These robust units can be mounted to existing toolbars or 'in-frame' using an offset mount system supplied by K-Line Industries.

- Swivel castor for trouble-free cornering
- Adjustable spring pressure for various soil types and conditions
- Simple depth control - adjustable
- Single disengaging pin
- Heavy duty, well protected bearings for ease of maintenance
- Bushed pivots for low maintenance in demanding conditions
- Wide range of mounting options
- Low maintenance
- Non-greasable, sealed bearing mounts
