

DELTA HAY PRO

DELTA HAY PRO “RUBBER FLEX TINE REELS”

The latest and most advanced raking concept for quality hay producers and exporters. Heavy duty but cost effective, this rake minimises hay contamination, leaves a uniform windrow and is gentle on the leaf and hay, allowing you to make the highest quality hay possible.

DELTA HAY PRO

FEATURES

- Fully shielded rubber flex tine reels
- Driven by material only
- No soil contamination
- Accurate reel height settings
- Adjustable reel angle settings
- Simple to use
- Trouble free operation
